

QLD WASTE LEVY

Fact Sheet

Prepared by: Resource Hub Consulting

Effective July 2024

Resource Hub Consulting Pty Ltd | ABN 75 636 171 241

WASTE LEVY ESSENTIALS

What is the QLD waste levy?

The waste levy is a fee that all landfill operators (Council & Commercial) must pay to the QLD Government for every levyable tonne of waste disposed to landfill. Some materials are exempt from levy and some materials have differing rates per tonne.

It is designed to promote recycling and resource recovery rather than sending waste to landfill - making it more expensive to NOT recycle and thus discouraging landfill disposal.

COST TO RECYCLE

GATE FEE: \$200 per tonne

COST TO LANDFILL

GATE FEE + LEVY
\$180 + \$105

TOTAL COST: \$285 per tonne

What waste is the levy paid on?

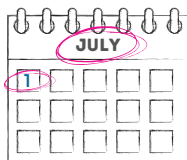

Every tonne of waste that is sent to a landfill - and does not have an exemption - will incur the levy liability. Since not all wastes that arrive at a waste facility end up in landfill, the levy is not payable to Qld Government for all loads into a facility. **The general rule for calculating the leviable tonnes of waste is:**

New Levy Zone

From 1 July 2022, a single levy zone was divided into 2 zones: **metro** and **regional**.

METRO

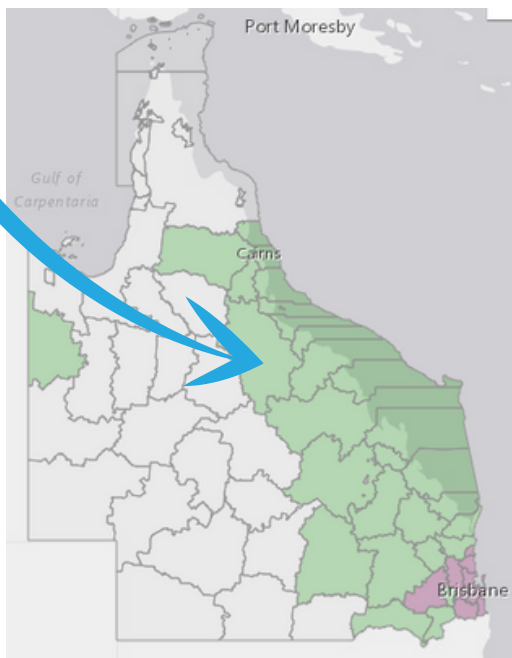

3 zones in total:

- ✔ **Metro levy zone**

 12 councils in SEQ
- ✔ **Regional levy zone**

 27 councils
- ✔ **Non-levy zone** for Remote Areas -
NO CHANGE

 39 councils

REGIONAL

Councils in the Metro levy zone		
Brisbane City Council	Logan City Council	Scenic Rim Regional Council
Gold Coast City Council	Moreton Bay Regional Council	Somerset Regional Council
Ipswich City Council	Noosa Shire Council	Sunshine Coast Regional Council
Lockyer Valley Regional Council	Redland City Council	Toowoomba Regional Council
Councils in the Regional levy zone		
Banana Shire Council	Gladstone Regional Council	Mount Isa City Council
Bundaberg Regional Council	Goondiwindi Regional Council	North Burnett Regional Council
Burdekin Shire Council	Gympie Regional Council	Rockhampton Regional Council
Cairns Regional Council	Hinchinbrook Shire Council	South Burnett Regional Council
Cassowary Coast Regional Council	Isaac Regional Council	Southern Downs Regional Council
Central Highlands Regional Council	Livingstone Shire Council	Tablelands Regional Council
Charters Towers Regional Council	Mackay Regional Council	Townsville City Council
Douglas Shire Council	Maranoa Regional Council	Western Downs Regional Council
Fraser Coast Regional Council	Mareeba Shire Council	Whitsunday Regional Council
Councils in the Non-levy zone		
<i>All other Councils in Queensland</i>		

Is any waste FREE from levy?

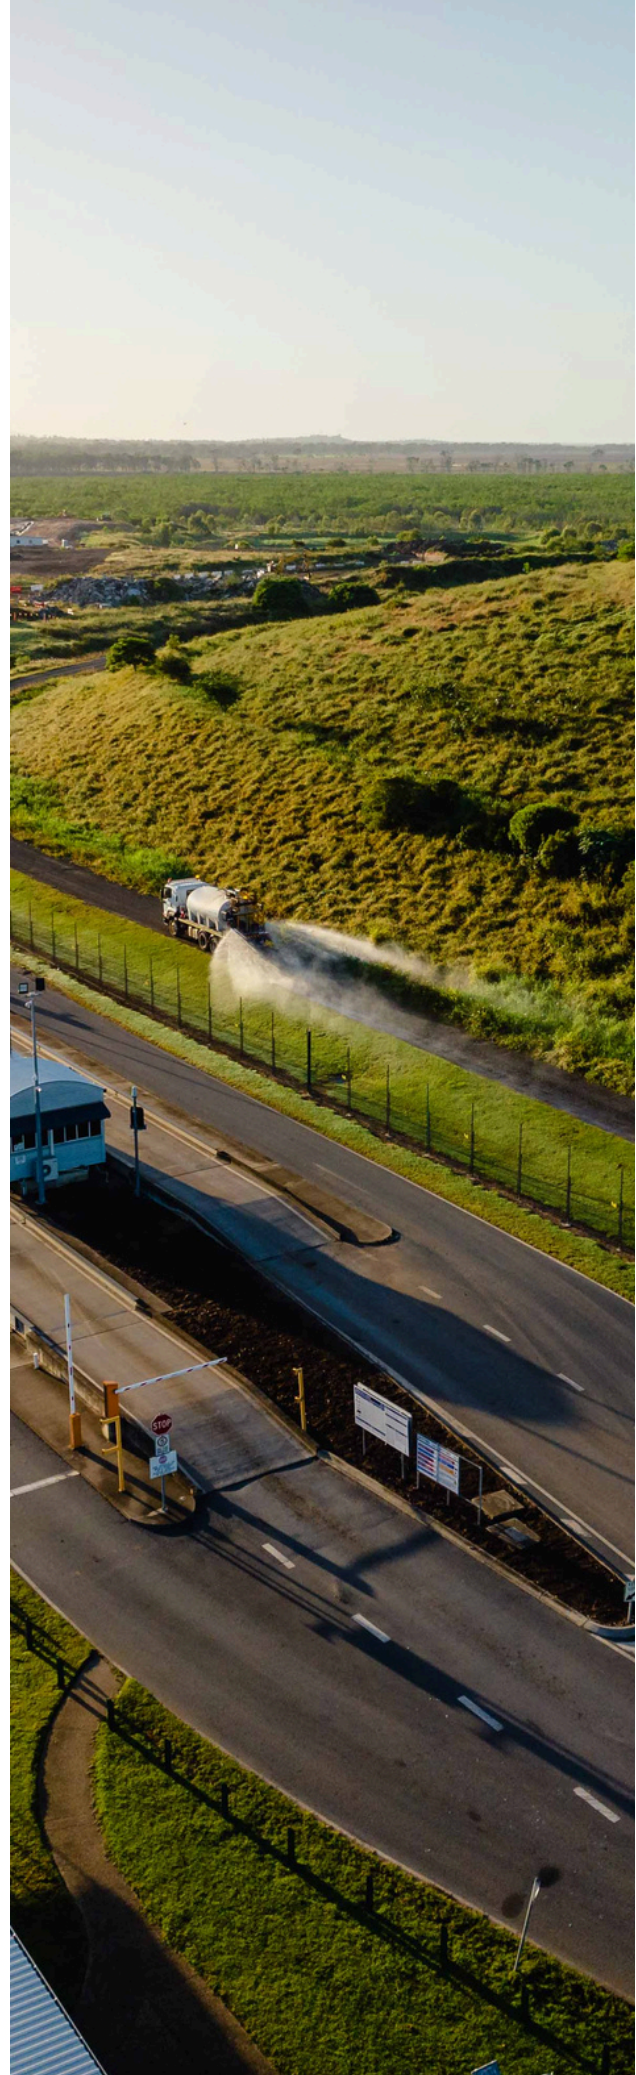

Yes, levy exemptions can be claimed for some materials, including, but not limited to:

- ✓ Declared Disasters
- ✓ Serious local event waste (decided by local councils)
- ✓ Clean Asbestos
- ✓ Dredge spoil
- ✓ Litter and illegally dumped waste
- ✓ Charity waste (An application must be made)
- ✓ Waste to be used on site - operationally (An application must be made)

What does the waste levy cost?

TYPE OF WASTE	LEVY RATE
MOST Materials Metro	\$105.00 per tonne
MOST Materials Regional	\$91.00 per tonne
Regulated waste: Category 1 Metro	\$185.00 per tonne
Regulated waste: Category 1 Regional	\$179.00 per tonne
Regulated waste: Category 2 Metro	\$135.00 per tonne
Regulated waste: Category 2 Regional	\$124.00 per tonne

The QLD waste levy rates apply from 1 July 2024.

What is the Annual Advance Payment?

To ensure that the waste levy has no direct impact on households, the State provides councils with an annual advance of levy liability relating to Municipal waste.

A total of 43 councils are eligible: 39 levy zone Council's and four (Cook, Wujal Wujal, Yarrabah and Palm Island) located outside of the levy zone, but which dispose of their waste IN the levy zone.

$$\text{Payment Calculation} = \text{Total MSW Tn to Landfill} \times \text{Annual Rate} \times \text{Levy Rate}$$

Future annual advance payments to councils

Advance annual payments for councils have been extended. Other Australian States do not provide any funding to councils to cover the cost of the waste levy.

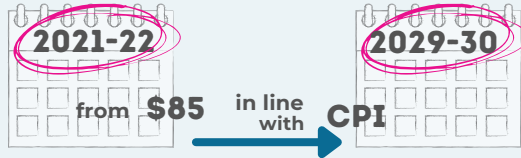

Levy zone (from 1 July 2022)	Annual payments percentage (to be received in financial year) (Baseline year to calculate annual payments is 2021-22)								
	2022-23	2023-24	2024-25	2025-26	2026-27	2027-28	2028-29	2029-30	2030-31
Metro councils and regional councils in Bundaberg, Cairns, Fraser Coast, Gladstone, Mackay, Rockhampton and Townsville (19 councils)	105%	95%	85%	70%	60%	50%	40%	30%	20%
Eligible regional councils	105%	100%	100%	100%	100%	100%	100%	100%	100%

Future waste levy rates

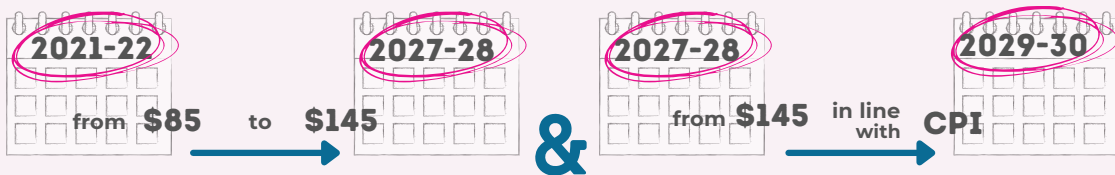

A **10-year schedule** of waste levy rates has been made available. There is one set of rates for councils in the metro zone and one set for the regional zone:

Regional

The regional levy zone rate for general waste which is \$85 in 2021-22, will increase in line with CPI until 2029-30.

Metro

The metro levy zone rate for general waste will increase from \$85 in 2021-22 to \$145 in 2027-28. The rates will then increase in line with CPI until 2029-30.

The metro levy zone rate for general waste for QLD in 2027-28 will be on par with the equivalent NSW rate from 2021-22

Type of waste	Levy zone (from 1 July 2022)	Levy rate (per tonne) increases (per financial year)								
		2021-22	2022-23	2023-24	2024-25	2025-26	2026-27	2027-28	2028-29	2029-30
General levy rate (i.e. other levyable waste)	Metro	\$85	\$95	\$105	\$115	\$125	\$135	\$145	CPI increase	CPI increase
	Regional	\$85	CPI increase	CPI increase	CPI increase	CPI increase	CPI increase	CPI increase	CPI increase	CPI increase
Treated timber sawdust and shavings	Metro	\$85	\$95	\$105	\$115	\$125	\$135	\$145	CPI increase	CPI increase
	Regional	\$85	CPI increase	CPI increase	CPI increase	CPI increase	CPI increase	CPI increase	CPI increase	CPI increase
Earth contaminated with a hazardous contaminant from land recorded on the environmental management register or contaminated land register	Metro	\$85	\$95	\$105	\$115	\$125	\$135	\$145	CPI increase	CPI increase
	Regional	\$85	CPI increase	CPI increase	CPI increase	CPI increase	CPI increase	CPI increase	CPI increase	CPI increase
Regulated waste: Category 1	Metro	\$165	\$175	\$185	\$195	\$205	\$215	\$225	CPI increase	CPI increase
	Regional	\$165	CPI increase	CPI increase	CPI increase	CPI increase	CPI increase	CPI increase	CPI increase	CPI increase
Regulated waste: Category 2	Metro	\$115	\$125	\$135	\$145	\$155	\$165	\$175	CPI increase	CPI increase
	Regional	\$115	CPI increase	CPI increase	CPI increase	CPI increase	CPI increase	CPI increase	CPI increase	CPI increase

WHAT IT MEANS FOR YOU

This announcement gives businesses and investors certainty in what to expect the waste levy rates will be each year for the next 10 years.

WASTE COLLECTION

WASTE CLASSIFICATIONS & WHAT THEY MEAN

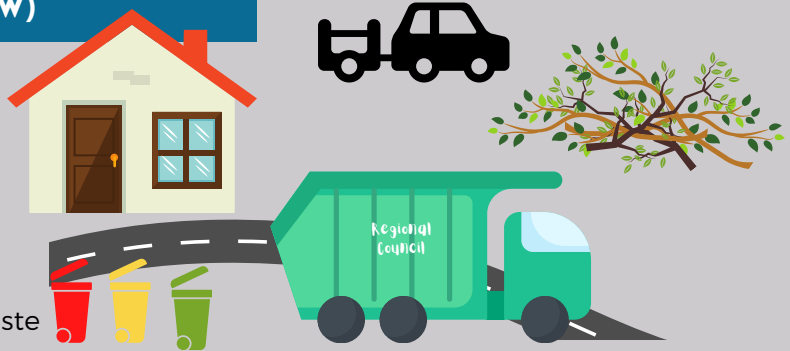

- ✓ **WASTE STREAM** Who generated the waste?
- ✓ **WASTE CLASS** What levy rate applies?
- ✓ **MATERIAL TYPE** What sort of waste is it?

WASTE STREAMS

MUNICIPAL SOLID WASTE (MSW)

Municipal solid waste consists of one or more of the following types of loads:

- domestic kerbside waste
- resident self hauled waste
- street sweepings
- litter, council park/garden waste

COMMERCIAL & INDUSTRIAL WASTE (C&I)

Commercial and industrial waste includes waste generated by:

- businesses
- industry and charities
- schools
- hospitals
- other institutions
- government offices

CONSTRUCTION AND DEMOLITION WASTE (C&D)

Construction and demolition waste is generated from:

- construction works
- demolition works
- Builders and demolishers

WASTE CLASS

LEACHATE : Use the NONE class as there is a special method for reporting.

APPROVED RESIDUALS: These exemptions have an exemption approval number with RESD in it, issued by the Department.

NON WASTE: It might be fuel? It might be a heavy vehicle on hire? It might be day cover that you PURCHASED (not disposed). If it's not waste being disposed, consider it NW

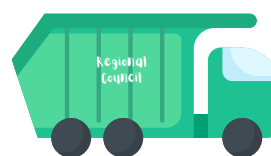

Material Type	Code
C&I (per waste stream)	CI
C&D (per waste stream)	CD
MSW (per waste stream)	MSW
Contaminated Soil w Permit	CSPERMIT
Exemption - Approved	EXAPP
Exemption - General	EXGEN
Non Waste	NW
Discounted Residual (Approved)	RESDISC
Regulatory Waste Category 1	RWCAT1
Regulatory Waste Category 2	RWCAT2
For Detailed data purpose only	NONE

MATERIAL TYPES

Material Type refers to the actual rubbish being disposed. Is it green waste? Is it a load of concrete? Is it a mixture of different types of waste?

Each material type has a corresponding waste reporting code. The table below shows a selection of material types and their codes.

Material Type	Code
Asbestos	ASB
Clean earth	CE
Co-mingled recycling	CMR
E-waste	EW
Green waste	GW
Mixed materials	MM
Leachate	LEACH
Tyres	T

Where a mixed load occurs - a vehicle has some general rubbish plus a tyre, plus some green waste plus some concrete etc - this is considered to be Mixed Materials (MM) waste type.

Types of waste to be measured and reported

All waste delivered to a facility with a Landfill is required to be reported in tonnes if a weighbridge is present. Movements of waste or other materials over one tonne must also be measured and recorded. This includes waste delivered to landfills, resource recovery areas, removed from site or moved internally.

LEVY REPORTING

REGULATORY REPORTING

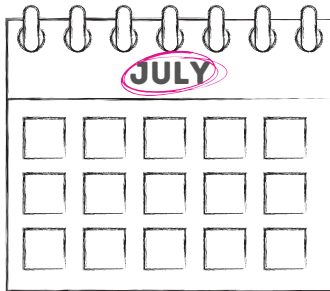

The Queensland Waste Data System (QWDS) is a web-based system for operators to report on all their waste data requirements. Lodgements are made to QWDS each Month.

DATA RETURN / SURVEY	WHO IT APPLIES TO	WHEN	WHAT
monthly summary return (SR)	Metro + Regional Levy Zone - all landfill operators	By the last business day of the next month after a levy period	Summary information of all waste and other materials coming onto the waste disposal site
	Non-levy zone - operators that receive waste from a levy zone		
MONTHLY DETAILED DATA FILE (DDF)	Metro + Regional Levy Zone - operators that are required to hold an Environmental Authority to receive >10,000 tonnes p.a.	By the last business day of the next month after a levy period	Detailed information of all waste and other materials coming onto the waste disposal site
	Non-levy zone - operators that are required to hold an Environmental Authority to receive >10,000 tonnes p.a. and receive >=50 tonnes in that levy period		
VOLUMETRIC SURVEY	Metro + Regional Levy Zone - required for all existing and new sites	Metro + Regional Levy Zone - Surveys must be flown by 30 June each year and submitted to DES by 31 July. For any new site/cell by the end of the following month in which the survey is carried out.	Size and content of the waste disposal site. Should reconcile to expected volumes on site per your monthly data
		Non-levy zone - by 31 July in following year	
ANNUAL WASTE SURVEY	Those identified by the department as operators who receive, sort, recycle, treat or dispose of waste above a threshold prescribed under a regulation and are part of a sector of entities	Annually by 31 August	Information on how much waste an entity receives, sorts, recycles treats or disposes of. Should reconcile to your Monthly returns

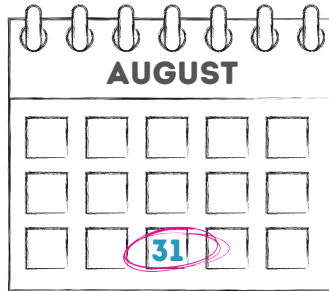

When must Facilities submit their QWDS Return and pay levy?

- Waste levy must be paid to the QLD DES on a **monthly** basis.
- The Detailed Data File and Summary Return (DDF and SR) must be submitted **by the last business day of the following month.**
- Facility must pay levy contributions **within 30 days** of the end of month during which the return was submitted.

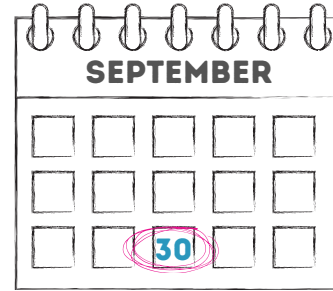

See July example below.

July reporting month

July QWDS Return due

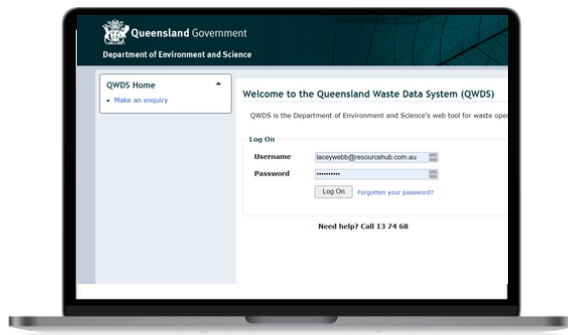

July levy payment due

Further details and levy payment dates can be found on the DES website.

How does Facilities lodge the QWDS Return?

Returns are submitted to the QLD DES via the online Queensland Waste Data System (QWDS).
